

THE EAR NOSE AND THROAT CLINIC & HEARING CENTER  
INSURANCE ADVICE

As a new patient, or an established patient with any insurance change, we advise you to phone your insurance company to confirm that we are within your specific insurance network.

We advise you to do this before your appointment to ensure that your insurance network will allow you to be seen by the providers in our clinic.

We advise that you also inquire about the individual provider you will be seeing.

We will be happy to give you a specific provider number so that you can communicate this to your insurance company.

I have read and understand this waiver.
